

Food/Paper Cost Variance and C=A Report on RTI/XBO

This guide provides step-by-step instructions on how to generate and interpret a Food or Paper Cost Variance report on RTI or XBO. It explains how to navigate the report manager, view the report for specific dates and restaurants, and understand the different columns and units of measurement. It also includes information on menu waste, raw waste, variance, cost per unit, and highlights any items with significant growth or loss. Additionally, it explains how to view breakdowns of ideal and actual usage, as well as how to generate and read a C=A (Ideal Usage forced to match Actual Usage) report. Overall, this guide is essential for anyone who wants to effectively analyze and manage their food or paper cost variances.

Click "Apply"

The image shows a date selection interface. On the left, there are four buttons: "THIS WEEK", "Next Week", "Week To Date", and "Custom" (which is highlighted in blue). To the right of these buttons is a calendar grid. The grid shows the following dates:

3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30
31	1	2	3	4	5	6

Below the calendar grid are two buttons: "Cancel" and "Apply". The "Apply" button is highlighted with an orange circle. The background of the interface is a light gray with horizontal stripes. In the bottom right corner, there is a vertical toolbar with two magnifying glass icons.
