

Password Reset/Reset MFA in RTI/XBO (Both)

This guide provides a straightforward process for resetting passwords and multi-factor authentication (MFA) for RTI and XBO users. It ensures that users can regain access to their accounts efficiently while adhering to security requirements. By following the outlined steps, users can quickly navigate the user management systems, making it an essential resource for administrators and users alike. Accessing this guide will streamline the account recovery process and enhance overall security management.

1 Log in.

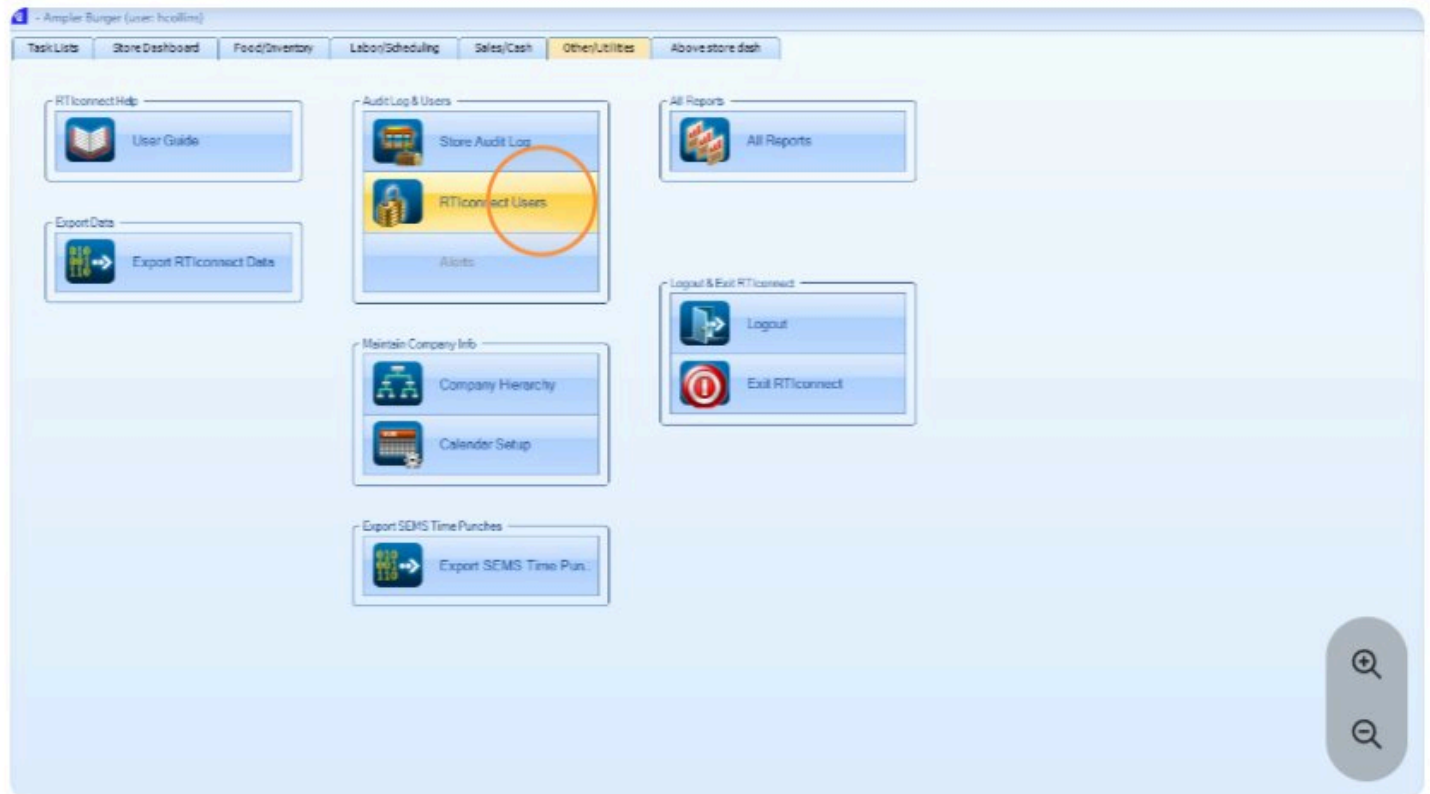

2

Click "Other/Utilities"

3

Click "RTIconnect Users"

4

Find user you are needing to adjust.

5

Complete all steps under "RTI User Management"

6

Change password.

The screenshot displays a user management application. In the foreground, a 'User' dialog box is open, showing the 'User Information' tab. The 'Username' field, containing 'gm15044', is circled in orange. The 'Password' and 'Verify Password' fields are empty. The 'Menu' dropdown is set to '1-Store-Force GM/AM/SM'. The 'Language' is set to 'English'. The 'Report Zoom' is set to 'Small'. The 'Email' checkbox is checked, and the 'SMS' checkbox is unchecked. The 'Email Address' field contains 'gm15044@emplergroup.com'. The 'HTML Format' checkbox is checked. The background shows a list of users with columns for Name, Username, and Password. The 'Logout & Exit RTIconnect' panel is visible in the top right corner.

Click "Cancel"

The screenshot shows the 'Amplifier Settings' page in the AWS Amplify console. At the top right, the user's name 'Heather Collins' and the project name 'Amplifier Burgers' are displayed. Below this is a header bar with a 'Cancel' button (circled in orange) and a 'Save' button. The main content area contains several input fields for configuration, including a password field with a lock icon, a dropdown menu for 'Focus GM/AM/SM', and two 'No' buttons at the bottom left. On the right side of the form, there are validation messages: 'X 8 or more characters.' and 'X At least 1 number.'. A vertical toolbar on the far right includes zoom-in and zoom-out icons.

17

Complete all steps under "XBO User Management"

18

Click "Clear MFA"

The screenshot shows a user profile settings interface. On the left is a grey sidebar. The main content area contains several settings sections:

- Preferred Language***: A dropdown menu showing "English".
- Report Zoom**: An empty text input field.
- Default Row Height***: A dropdown menu showing "Small".
- Account Disabled**: A toggle switch set to "No".
- Command Line User**: A toggle switch set to "No".
- Administrator**: A toggle switch set to "No".
- MFA Information**: A section with two toggle switches, "Email" and "SMS", both of which are turned on. To the right of these toggles is a small lock icon.

To the right of the "MFA Information" section, there is a button labeled "Clear MFA". This button is highlighted with an orange circle. In the bottom right corner of the page, there is a vertical grey bar containing two magnifying glass icons.

Click "Save"

The screenshot shows the 'Amplifier' settings page. At the top, the user's name 'Heather Collins' and the app name 'Amplifier Burgers' are visible. The main form contains a 'Name' field with the value 'Amplifier', a 'Description' field with the value 'Amplifier', and a 'Focus' dropdown menu set to 'GM/AM/SM'. Below these fields are two 'No' buttons. The 'Save' button is highlighted with a red circle.
