

Adjust KDS Routing

This guide provides a straightforward process for adjusting KDS routing, essential for optimizing kitchen operations. By following the steps outlined, users can efficiently manage their KDS settings, ensuring that orders are routed correctly and enhancing overall workflow. Whether you're a manager or staff member, mastering this function can lead to improved service and reduced errors in order preparation. Access the guide for a clear, step-by-step approach to streamline your kitchen's performance.

1 Click "Enter POS"

5

Click "KDS Routing"

6

Select which routing you want.

7

Click "Confirm Selection"

The screenshot displays the Burger King KDS interface. On the left, a vertical sidebar contains orange buttons with the numbers 8, 10, 12, 14, 16, and 18. The main area has a light orange background. At the top left, there are links for 'Burgers', 'Whoppers', and 'Specialties'. In the center, the text 'Orders from FC & DT' is displayed. Surrounding this text are four orange buttons: 'Main 1 KDS09' at the top left, 'Main 2 KDS11' at the top right, 'Specialty 1 KDS10' at the bottom left, and 'Specialty 2 KDS12' at the bottom right. A large orange button at the bottom center reads 'CONFIRM SELECTION Layout #1' with a checkmark icon; the word 'SELECTION' is circled in green. The bottom status bar shows 'Currently logged in as Training Manager', the date 'Sunday, January 4, 2026', and a phone number '9-22-5'. The Burger King logo is visible in the bottom right corner.
