

Rerouting Printers

This guide provides a straightforward process for rerouting printers, ensuring efficient management of printing tasks in a point-of-sale system. By following these simple steps, users can quickly redirect print jobs to the desired printer, minimizing downtime and enhancing productivity. It's an essential resource for anyone looking to streamline their printing operations in a busy environment.

1 Click "Enter POS"

Slide card or enter PIN

A digital keypad interface for a payment screen. The keypad is centered on a light grey background. It consists of a 3x3 grid of white buttons with black borders. The first row contains buttons for digits 4, 5, and 6. The second row contains buttons for digits 7, 8, and 9. The third row contains buttons for 'C' (clear), '0', and a delete key (represented by a black square with a white 'x'). Below the grid are two buttons: a white 'CANCEL' button on the left and a dark grey 'DONE' button on the right. The 'DONE' button is highlighted with a green circle. To the right of the keypad, a grey card is partially visible, showing a dark grey band at the bottom.
