

Marking Sold Out/Limited Availability

This guide is essential for ensuring proper inventory management within your organization. It outlines the necessary steps for marking items as sold out or limited quantity, emphasizing the importance of communication with the District Manager. By following these procedures, you can maintain accurate item availability and prevent confusion during business operations. Understanding these workflows will enhance efficiency and support better decision-making in your sales environment.

The screenshot shows a mobile application interface for a payment screen. At the top, there is a header bar with a blue gradient. Below the header, the screen is divided into two main sections. The left section is a large, light gray rectangular area. Above this area, on the right side, are two labels: "\$6.99" and "Available". The right section contains a numeric keypad with buttons for digits 1 through 9, 0, a "Clear" button, and a "Delete" button. Below the keypad, there are two buttons: a white "Cancel" button and a dark gray "Save" button. A green circle highlights the "Save" button. To the right of the "Save" button, there is a vertical stack of two circular icons: a magnifying glass with a plus sign and a magnifying glass with a minus sign.
